

Advanced Searching lets you quickly pinpoint a docket with limited information.

Search WestDockets two ways. If you know the name or number of the docket, just fill in a template. Simple.

But the real power of Westlaw comes into play when you don't know the exact name or docket number – or want to narrow your results to a specific procedural issue. Just type in a free text query with whatever information you have, and zero in on the exact docket you need.
